The Expansion and Contraction of Product Liability Causes of Action

Julien Sicco co-authored an article reviewing 2021 product liability case law, focusing on how courts clarified the scope in negligence and limits on warranty claims, as seen in *Price v Smith & Wesson Corp* and *1688782 Ontario Inc v Maple Leaf Foods Inc.* The article highlights key decisions that affect manufacturers, especially around dangerous goods, economic loss, and challenges in certifying class actions. *(Prior to joining Lenczner Slaght)*
